## MONO RIMBO FINGER JOYSTICK

Due to its space-saving design and precise controllability, the MONO RIMBO finger joystick is the ideal solution in limited installation space. The single-axis joystick's cap is available in several colours and can be laser-engraved with both standard and customer-specific symbols. The modular design allows it to be used in a wide number of industrial applications.

- Central zero position
- Angle of rotation $\pm 30^{\circ}$
- Contactless Hall-effect sensor technology
- Two analogue signals, X characteristic
- Sensitive control
- Ergonomic design
- Protection class IP 68, except plug
- Long service life of 5 million cycles
- EMC in accordance with EN 12895: 2015-09
- EMC 100 V/M in accordance with ISO 11452-2
- Functional safety in accordance with

EN ISO 13849, PL d

Joysticks
